ABOUT APIE

Gather Asia-Pacific Manufacturing Power, Customize Your Intelligent Factory

From July 18, 2021 to July 22, 2021, the Asia-Pacific International Intelligent Equipment Exposition was successfully held in Qingdao • Hongdao International Conference and Exhibition Center with the theme of Gather Asia-Pacific Manufacturing Power, Customize Your Intelligent Factory.

The Asia-Pacific International Intelligent Equipment Exposition (APIE), with intelligent manufacturing as the core, based on the economic system of China, Japan and South Korea, radiates more than 20 countries and regions in the Asia-Pacific region, focuses on the new era of intelligent manufacturing and devotes itself to creating a feast of global intelligent equipment solutions. As one of the domestic brand exhibitions, APIE deeply focuses on the frontier of intelligent manufacturing between China, Japan and South Korea, devoting its mind to purchasing transaction, and promoting the transformation of enterprise intelligence.

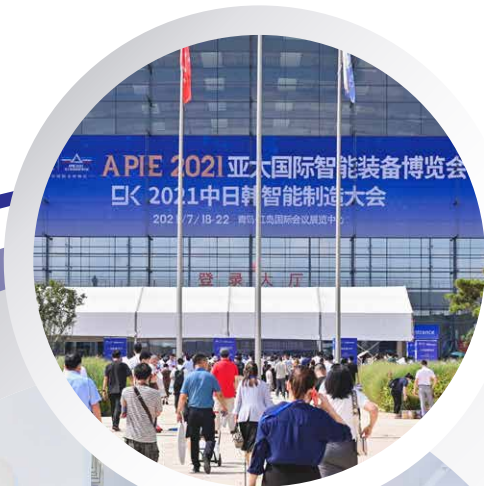

The Exposition is divided into industrial internet, industrial automation, robots, rubber and plastic industry, packaging industry, logistics and equipment technology and other theme exhibition areas, focusing on the new products, new technologies and cooperation demands of multinational enterprises, domestic well-known enterprises and leading enterprises in the industry. The exhibition takes it as its own responsibility to meet the needs of customers' informatization and digital upgrading, strive to build a professional communication platform, and build a trade platform integrating communication, cooperation, solution and innovation between exhibitors and buyers.

The CJK2021 China-Japan-Korea Intelligent Manufacturing Conference held at the same time of the exhibition is based on Qingdao, facing the Asia-Pacific region, focusing on the frontier technologies and application trends of intelligent manufacturing in China, Japan and South Korea, and centering on major demands and key issues in the field of intelligent manufacturing. Hundreds of experts from more than 10 countries and regions shared the latest developments and trends in the field of intelligent manufacturing innovation through nearly 30 special forums to talk with 3000+ industry elites on the frontier technologies of intelligent manufacturing.

Exhibitor's Voice

KEYENCE 基恩士

Keyence (China) Co., Ltd.

Last year, Keyence also participated in the Asia-Pacific International Intelligent Equipment Exposition and reached direct cooperation with buyers on site, and the results were very good. So this year, we come here again. The scene atmosphere is very good. At present, we have already communicated with some purchasers. They have expressed their great intentions. Afterwards, we will continue to follow up. Thank you for the Asia-Pacific International Intelligent Equipment Exposition, and wish the exhibition better and better.

BROTHER

Qingdao Brother Automation System Co., Ltd.

From the pre-exhibit preparation process, exhibition arrangement, and then to the development, the organizers have been serving us intimately and actively communicating and solving problems encountered. Through the exhibition, more audiences have learned about our company and have a more detailed understanding of our company's technology. It's been a worthwhile trip.

**华晟智能
HUASHINE INTELLIGENT**

Huashine (Qingdao) Intelligent Equipment Technology Co., Ltd.

Many exhibitions at home and abroad have been affected by the epidemic this year, but the Asia-Pacific International Intelligent Equipment Exposition still attracts a lot of visitors. We have met many new friends at this exhibition, and also had deep exchanges and communication with old customers. I wish the exhibition better and better, and see you next year.

UNIVERSAL ROBOTS

Universal Robots

Thank you for the sharing and communication platform established by the organizers. Through effective trade transaction, supply and demand docking have further opened the market. We wish the Asia-Pacific International Intelligent Equipment Exposition better and better. Looking forward to 2022!

**商汤
sensetime**

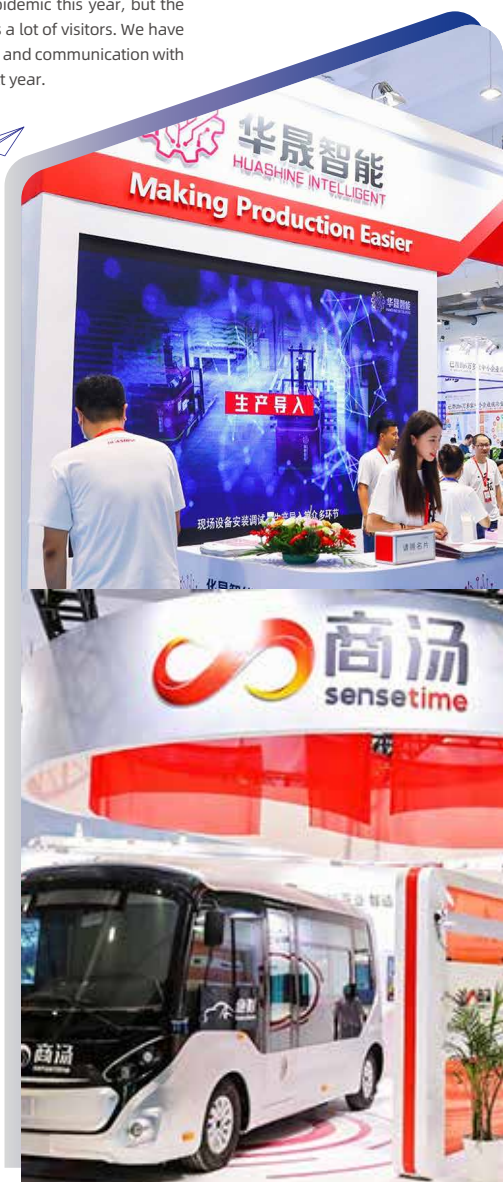

SenseTime Technology

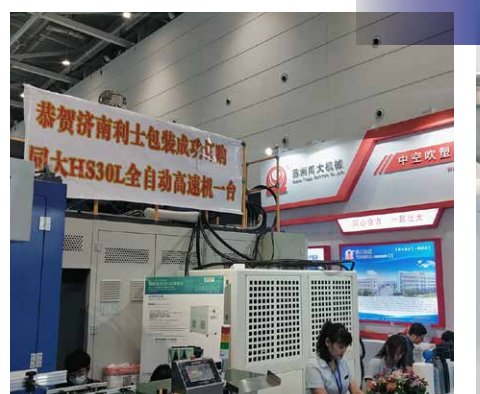

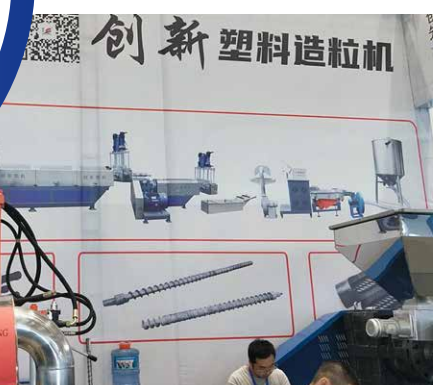

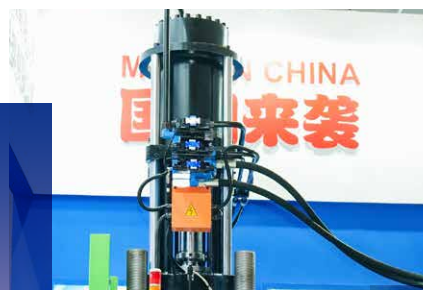

This year, the exhibition is large in scale and the publicity is in place. I have seen the publicity of the exhibition at the airport and subway.. As an exhibitor, I am also very excited. There is a continuous flow of people at our booth and the effect is good. Looking forward to 2022!

FATEK®

Fatek Electric Co., Ltd.

This year, Our company's performance has continued to rise under the epidemic, and the sales continued to grow. The Asia-Pacific International Intelligent Equipment Exposition gives us the opportunity to achieve a higher breakthrough. In the future, we hope to continue to develop together with the Asia-Pacific International Intelligent Equipment Exposition.
